<p><i>Back in September 2007, owing to illness, Ray regrettably had to cancel all of his then scheduled performances up to and including August of this year. Although it is still difficult to accurately assess "full clearance" regarding Ray's condition, re-scheduling of some of these cancelled performances is beginning to take place either later this year or into 2009. Please "watch this space", or see Ray's online diary for all news updates.</i></p>
